Monument Constructors
October 25, 2010

To Whom It May Concern:

I would like to recommend Monument Constructors for any roofing needs you and your company need. We began a relationship with Monument Constructors in the Spring of 2009. They came to our district to meet about a possible roofing job that we needed at the Elementary Campus. They spent 2 full days on the roof of that building, measuring curbs, looking at potential problems, and creating drawings and plans for the project. They did all of this BEFORE they were hired. They then set a meeting between Monument and myself and presented their findings. I was very impressed with everything they had to say about our needs and what they could do for us.

After hiring them to complete the project I always felt they had the best interest of the district in mind. They were very accommodating to our requests for the roofing project. We never had any class disturbance issues and very little staging area and parking lot requirements were needed. I always called the site manager and or Wayne Parker for any concerns or needs that I had. They were prompt to answer my questions and alleviate my concerns. They completed the project on time and in the schedule set by Monument Constructors. Not only was the quality of work excellent, the professionalism of the company and staff was outstanding. The price beat all of our local competitors by a significant amount.

Although we have not completed an energy savings study at this time, its obvious that we are saving money on energy and roof leaks in that building.

Monument Constructors have been a great company to build a relationship with for our school district. I will without question consider them for future roofing projects in our district.

Sincerely,

A handwritten signature in black ink that reads "Marc Faulkner". The signature is written in a cursive, flowing style.

Marc Faulkner, Assistant Superintendent
